

Neuroscience Course Archive

Neuroscience Courses 2007-2008

Spring 2008

- NS201C: Genetics, Development and Cell Biology of the Nervous System
- NS219: Special Topics in Basic Translational Neuroscience
- NS221: Current Topics in Neuroscience
- NS243: Cognitive Neuroscience

Winter 2008

- NS201B: Basic Concepts Systems Neuroscience
- NS221: Current Topics in Neuroscience
- NS230: Membrane Biophysics and Synaptic Physiology

Fall 2007

- NS201A: Basic Concepts in Cellular and Molecular Neuroscience
- NS221: Current Topics in Neuroscience
- NS223: Developmental Neurobiology
- NS248: Neural and Behavioral Data Analysis

Neuroscience Courses 2006 – 2007

Spring 2007

- NS201C: Genetics, Development and Cell Biology of the Nervous System
- NS225: Neurobiology of Disease

Winter 2007

- NS201B: Basic Concepts Systems Neuroscience
- NS235: Transduction and Signal Processing in Sensory Neurons

Fall 2006

- NS201A: Basic Concepts in Cellular and Molecular Neuroscience
- NS245: Behavioral Neuroscience

Neuroscience Courses 2005 – 2006

Spring 2006

- N201C: Developmental and Cell Biology
- NS249: Neural Circuits, Perception & Action

Winter 2006

- N201B: Basic Concepts in Systems Neuroscience
- NS240: Neurobiology of Vision

Fall 2005

- N201A: Basic Concepts in Cellular and Molecular Neuroscience
- NS228: Neurochemistry and Neuroendocrinology-Neurochemistry of Behavior

Neuroscience Courses 2004 – 2005

Spring 2005

- N201C: Developmental and Cell Biology
- NS222: Signaling in Neurobiology
- NS225: Neurobiology of Disease
- NS248: Neural and Behavioral Data Analysis

Winter 2005

- N201B: Basic Concepts in Systems Neuroscience
- NS244: Concepts of sensory-motor integration (cancelled)

Fall 2004

- N201A: Basic Concepts in Cellular & Molecular Neuroscience
 - NS223: Developmental Neurobiology
-

UCSF Neuroscience Graduate Program

Neuroscience Courses 2003 – 2004

Spring 2004

N201C: Developmental and Cell Biology
NS235: Sensory Transduction and Perception
NS245: Behavioral Neuroscience
Ethical Conduct of Science

Winter 2004

N201B: Basic Concepts in Systems Neuroscience
NS247: Theoretical and Computational Neuroscience

Fall 2003

N201A: Basic Concepts in Cellular & Molecular Neuroscience
NS230: Membrane Biophysics and Synaptic Physiology

Neuroscience Courses 2002 – 2003

Spring 2003

N201C: Neurodevelopment
NS225: Neurobiology of Disease
Ethical Conduct of Science

Winter 2003

N201B: Basic Concepts in Systems Neuroscience
NS240: Advanced Topics in Integrative Neurobiology: The Visual System

Fall 2002

N201A: Basic Concepts in Cellular & Molecular Neuroscience
NS228: Neurochemistry of Behavior: Neurochemistry and Neuroendocrinology

Neuroscience Courses 2001 – 2002

Spring 2002

NS242: Thalamus Cortex and Perception
NS202: Neuroanatomy
NS222: Signaling in Neurobiology
Ethical Conduct of Science:

Winter 2002

NS201B: Basic Concepts in Developmental & Systems Neuroscience
NS245: Behavioral Neuroscience

Fall 2001

NS201A: Basic Concepts in Cellular & Molecular Neuroscience
NS223: Developmental Neurobiology
